Nursing Leadership Spring Conference: Compassionate Connected Care

Healthcare providers often overlook healthcare's fundamental goal — to alleviate suffering — amid the stress of increasing regulation, decreasing reimbursement and heightened attention to quality ratings. However, eliminating suffering can improve outcomes for patients and their caregivers.

Christy Dempsey, MSN, CNO of Press Ganey and author of the book, *The Antidote to Suffering: How Compassionate Connected Care Can Improve Safety, Quality, and Experience* will spend a morning with us to share how hospitals can improve the healthcare experience for both patients and caregivers.
